Complaints of Safety Problems at US Nuclear Reactor Facilities from On-Site Employees & Contractors*
January 2007 to August 2011

San Onofre - worst safety record of all 104 U.S. Reactors!

*The Nuclear Regulatory Commission (NRC) refers to these complaints as "Allegations from On-Site Sources" (current/former reactor facility employees/contractors and anonymous allegers). These are reports of impropriety or inadequacy of NRC-related safety or regulatory concerns. (Note: A concern about a safety-conscious work environment (SCWE) problem at a facility is an important allegation. However, a Notice of Violation cannot be issued, because there is no applicable NRC regulation.)

Complaints of Employee Harassment and Retaliation at U.S. Nuclear Facilities*
January 2007 - August 2011

San Onofre - worst record of harassment and retaliation against employees reporting safety problems!

*The Nuclear Regulatory Commission (NRC) refers to these reports as "Discrimination Allegations" from employees, contractors, or subcontractors of harassment, intimidation, or discrimination for raising NRC-related safety or regulatory concerns. "Discrimination Allegations Received" is a subset of all "Allegations Received."

Complaints of Safety Problems from On-Site Employees & Contractors*
January 2007 - December 2010

*The Nuclear Regulatory Commission (NRC) refers to these complaints as "Allegations from On-Site Sources" (current/former reactor facility employees/contractors and anonymous allegers). These are reports of impropriety or inadequacy of NRC-related safety or regulatory concerns. This chart includes the number of on-site allegations filed with the NRC. However, each allegation may contain multiple complaints. The multiple complaint count is not included on this chart. Also, an allegation about a safety-conscious work environment (SCWE) problem at a facility is important. However, a Notice of Violation cannot be issued, because there is no applicable NRC regulation.
