TSUNAMI INUNDATION MAP FOR EMERGENCY PLANNING

State of California ~ County of San Diego
SAN ONOFRE BLUFF QUADRANGLE

PURPOSE OF THIS MAP

The inundation map has been compiled with best currently available scientific information. The inundation line represents the maximum considered tsunami runup from a number of extreme, yet realistic, tsunami sources. Tsunamis are rare events; due to a lack of known occurrences in the historical record, this map includes no information about the probability of any tsunami affecting any area within a specific period of time.
