**Worst 5-year safety record (including 2011) and worst retaliation record**

**Complaints of Safety Problems at all U.S. Nuclear Power Plants from On-Site Employees & Contractors***

2007 to 2011 (5 years)

San Onofre - WORST safety record of all U.S. Nuclear Reactors!

(located near San Clemente, CA)

Palo Verde (Arizona plant provides power to California)

Diablo Canyon (San Luis Obispo, CA)

*The NRC refers to these complaints as “Allegations from On-Site Sources” (current/former power plant employees/contractors and anonymous allegers). These are reports of impropriety or inadequacy of NRC-related safety or regulatory concerns. One allegation report may contain multiple allegations; however, the NRC counts it as one allegation in these statistics (Note: A concern about a safety-conscious work environment (SCWE) problem at a facility is an important allegation. However, a Notice of Violation cannot be issued, because there is no applicable NRC regulation.) There are 64 U.S. nuclear power plants reactors. Plants with multiple reactors are noted.

---

**Complaints of Employee Harassment and Retaliation at U.S. Nuclear Power Plants***

2007 to 2011 (5 years)

San Onofre - worst record of harassment and retaliation against employees reporting safety problems!

(located near San Clemente, CA)

Palo Verde (Arizona plant provides power to California)

Diablo Canyon (San Luis Obispo, CA)

*The NRC refers to these reports as “Discrimination Allegations” from employees, contractors, or subcontractors of harassment, intimidation, or discrimination for raising NRC-related safety or regulatory concerns. One allegation report may contain multiple allegations; however, the NRC counts it as one allegation in these statistics. “Discrimination Allegations Received” is a subset of all “Allegations Received.” There are 64 U.S. nuclear power plants & 104 reactors. Plants with multiple reactors are noted.
