Safety Complaints to NRC from all External Sources*
Non-Operating U.S. Nuclear Power Reactors
January 2009 to August 2013

San Onofre – worst safety complaint record in the nation!

*The Nuclear Regulatory Commission (NRC) refers to these complaints as "Allegations from External Sources" (all sources external to the NRC). Majority of complaints are from employees & other on-site sources. These are reports of impropriety or inadequacy of NRC-related safety or regulatory concerns. Includes all non-operating U.S. operating nuclear power plants & reactors. One allegation report may contain multiple allegations. However, the NRC counts it as one allegation in these statistics. A complaint about a safety-conscious work environment (SCWE) problem is important; however, a Notice of Violation cannot be issued, because there is no applicable NRC regulation. Employee Harassment and Retaliation Complaints*
Non-Operating U.S. Nuclear Power Reactors
January 2009 to August 2013

San Onofre - highest retaliation against employees reporting safety problems!

*The Nuclear Regulatory Commission (NRC) refers to these reports as "Discrimination Allegations" from employees, contractors, or subcontractors of harassment, intimidation, or discrimination for raising NRC-related safety or regulatory concerns. One allegation report may contain multiple allegations. However, the NRC counts it as one allegation in these statistics. "Discrimination Allegations Received" is a subset of all "Allegations Received." Plants with multiple reactors are noted. Source: www.nrc.gov/about-nrc/regulatory/allegations/statistics.html
